P.R.I.C.E. PHILOSOPHY

The P.R.I.C.E. philosophy is an **unswerving** belief that change in parents and children is possible and can occur at any moment with proper training, willingness and support. P.R.I.C.E. embodies the spirit of parents learning from each other in order to **create families** that are supportive, caring & nurturing. P.R.I.C.E. opens the door to new insights, ideas and practices and instills a sense of **positiveness** in parents. This positive confidence is what children begin to identify with and incorporate into their lives. If indeed, children are the **eyes** of the future, then their parents are **responsible** for fostering a clear, loving and peaceful vision. P.R.I.C.E. is one step to building that vision.
