The statutes authorizing this funding (*California Education Code (EC) [Section 39800.1](#)* and *EC Section [41850.1](#)*):

The plan shall be adopted by the local educational agency's governing board on or before April 1, 2023, and updated by April 1 each year thereafter. The plan shall include the following components:

- (2) A description of how unduplicated pupils, as defined in subdivision (b) of Section 42238.02, would be able to access available home-to-school transportation at no cost to the pupils.
  - (b) (1) The plan shall be developed in consultation with classified staff, teachers, school administrators, regional local transit authorities, local air pollution control districts and air quality management districts, parents, pupils, and other stakeholders.
- (3) The plan shall be presented and adopted by the governing board of the local educational agency in an open meeting with the opportunity for in-person and remote public comment.
  - (c) The plan may provide for the local educational agency to partner with a municipally owned transit system to provide service pursuant to this section to middle school and high school pupils.
  - (d) Nothing in a local educational agency's plan shall preclude a local educational agency from providing no-cost transit passes to pupils.
  - (e) For purposes of this section, "local educational agency" means a school district or a county office of education.

**Transportation Services Accessible to Students with Disabilities and Homeless Children and Youth, as defined pursuant to the federal McKinney-Vento Homeless Assistance Act (42 USC 11301)**

Students with Disabilities:

The Governing Board desires to meet the transportation needs of students with disabilities to enable them to benefit from special education and related services. The district shall provide appropriate transportation services for a student with disabilities when the district is the student's district of residence and the transportation services are required by the student's individualized education program (IEP) or Section 504 accommodation plan.

The specific needs of the student shall be the primary consideration when an IEP team is determining the student's transportation needs. Considerations may include, but are not limited to, the student's health needs, travel distances, physical accessibility and safety of streets and sidewalks, accessibility of public transportation systems, midday or other transportation needs, extended-year services, and, as necessary, implementation of a behavioral intervention plan.

The Superintendent or designee shall provide IEP teams with information about district transportation services in order to assist them in making decisions as to the mode, schedule, and location of transportation services that may be available to each student with disabilities. The IEP team may communicate with district transportation staff and/or invite transportation staff to attend IEP team meetings where the student's transportation needs will be discussed.

Transportation services specified in a student's IEP or Section 504 plan shall be provided at no cost to the student or the parent/guardian.

If a student whose IEP or accommodation plan specifies transportation needs is excluded from school bus transportation for any reason, such as suspension, expulsion, or other reason, the district shall provide alternative transportation at no cost to the student or parent/guardian. (Education Code 48915.5)

The Superintendent or designee shall arrange transportation schedules so that students with disabilities do not spend an excessive amount of time on buses compared to other students. Arrivals and departures shall not reduce the length of the school day for these students except as may be prescribed on an individual basis.

The Superintendent or designee shall ensure that any mobile seating devices used on district buses are compatible with bus securement systems required by 49 CFR 571.222. (Education Code 56195.8)

As necessary, a student with disabilities may be accompanied on school transportation by a service animal, as defined in 28 CFR 35.104, including a specially trained guide dog, signal dog, or service dog. (Education Code 39839; Civil Code 54.1-54.2; 28 CFR 35.136)

When transportation is not specifically required by the IEP or Section 504 plan of a student with disabilities, the student shall be subject to the rules and policies regarding regular transportation offerings within the district.

#### Homeless Children and Youth:

Each homeless student shall be provided services that are comparable to services offered to other students in the school, including, but not limited to, transportation, educational programs for which the student meets the eligibility criteria (such as federal Title I services or similar state or local programs, programs for students with disabilities, and educational programs for English learners), career and technical education programs, programs for gifted and talented students, and school nutrition programs. (42 USC 11432)

The Superintendent or designee shall coordinate with other agencies and entities to ensure that homeless children and youth are promptly identified, ensure that homeless students have access to and are in reasonable proximity to available education and related support services, and raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness. Toward these ends, the Superintendent or designee shall collaborate with local social services agencies, other agencies or entities providing services to homeless children and youth, and, if applicable, transitional housing facilities. In addition, the Superintendent or designee shall coordinate transportation, transfer of school records, and other interdistrict activities with other local educational agencies. As necessary, the Superintendent or designee shall coordinate, within the district and with other involved local educational agencies, services for homeless students and services for students with disabilities. (42 USC 11432)

The district's liaison for homeless students shall fully inform parents/guardians of homeless students and unaccompanied youth of all transportation services, including transportation to the school of origin, and assist them in accessing transportation to the school of choice.

The district shall provide transportation for a homeless student to and from school of origin when the student is residing within the district and the parent/guardian, or the district liaison in the case of an unaccompanied youth, requests that such transportation be provided. If the student moves outside of district boundaries, but continues to attend the student's school of origin within this district, the Superintendent or designee shall consult with the superintendent of the district in which the student is now residing to agree upon a method to apportion the responsibility and costs of the transportation. (42 USC 11432)

Foster Youth:

The Superintendent or designee shall collaborate with the local child welfare agency to determine how transportation will be provided, arranged, and funded in a cost-effective manner to enable foster youth to remain in their school of origin, for the duration of their time in foster care, when it is in their best interest to do so. Such transportation costs may be paid by either the child welfare agency or the district, or shared by both. (20 USC 6312)

**Unduplicated students, as defined in Education Code 42238.02, will be able to access available home-to-school transportation at no cost.**

PVUSD provides free transportation services for all PVUSD students within the established walking district guidelines per grade-level; and in particular, for low-income students, English Learner Students, Homeless and Foster Students.

This allowance shall be reduced by the amount of the transportation add-on computed for the prior fiscal year under paragraph (1) of subdivision (h) of Section 42238.02 and adjusted under paragraph (3) of subdivision (h) of Section 42238.02 for a school district or subparagraph (A) of paragraph (2) of subdivision (e) of Section 2574 and adjusted under subparagraph (C) of paragraph (2) of subdivision (e) of Section 2574 for a county superintendent of schools. If this reduction results in an amount less than zero, the transportation allowance under this section shall be zero.

(2) Home-to-school transportation expenditures reported for a school district with two component school districts under a common administration board pursuant to Section 35110 shall be divided among the component school districts in proportion to the transportation add-on amounts computed pursuant to paragraph (1) of subdivision (h) of Section 42238.02.

(C) The remaining portion of a divided school district shall be credited with eligible home-to-school transportation expenditures it reported before the reorganization.

(D) If the reorganization includes a former school district that has been wholly included in more than one new or acquiring school districts, the amount of eligible home-to-school transportation expenditures shall be determined in a manner consistent with the adjustments made to the transportation add-on specified in paragraph (1) of subdivision (h) of Section 42238.02 pursuant to subdivision (c) of Section 35735.

(b) A local educational agency shall be subject to audits required by Section 41020 with respect to this section, including adoption of the transportation plan pursuant to Section 39800.1.
